

PIONEER ANNOUNCES A CURE FOR MONO.

THE AM STEREO AND FM STEREO CASSETTE KE-A433AM.

Since the advent of radio, AM stations have been plagued with a problem which has left much of its audience tired and listless. The problem is mono. Or, more specifically, monoradiosis.

Now, after years of intense research, Pioneer is proud to announce a cure for this dreaded disease. Introducing Pioneer's AM Stereo and FM Stereo cassette, the KE-A433AM. Finally, you can enjoy AM in stereo too. There are already AM Stereo stations broadcasting across the entire U.S. And because AM Stereo has a broader range than FM, you'll be able to pick up more stations than ever before.

Ask for a complete examination of the KE-A433AM and its abilities. Then give mono a kiss good-bye.

Key Features:

- AM and FM Stereo Cassette
- Supertuner™ III
- Quartz PLL electronic tuning
- 18 station (12 FM 6 AM) feather touch presets
- Day/night filter for improved AM Stereo listening
- Fader
- Station seek
- Full night illumination

At the present AM Stereo broadcasting is limited. For complete information see your Pioneer dealer.
